Own your workspace and its efficiency. From a busy lab to a complicated control panel, your work requires products that fit into your space, not the other way around. This workspace series makes room for two different high-performing solutions.

M210-LAB Label Printer

The M210-LAB label printer takes on your toughest labeling applications in the lab. Whether you're labeling beakers for short experiments or dropping vials in a cryo freezer, the label materials and built-in label creation guides are a perfect partnership for your laboratory. And with smart automatic formatting, you're set to go in seconds.

Top applications

Laboratory
Vial, tube, slide labeling, sample identification

General identification
Directional marking, equipment labeling
