BioDot Basic PCR

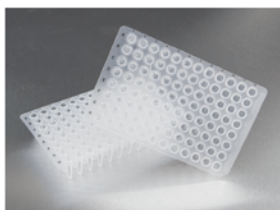

Our original thin wall PCR plastics line - rNase, dNase and Pyrogen free

BioDot 96 Well PCR Plates

Non-Skirted

Fits most popular thermal cyclers

- Slightly raised rims for maximum sealing surface

Catalog No.	Description	Value
650-PCR	96 Well, .2mL non-skirted PCR plate, natural, 25/pk	\$62.37

Half-Skirted

Compatible with ABI, Bio-Rad, eppendorf and more

- Raised outer edge helps align plate in Standard and RT Thermal Cyclers, ABI Sequencers, etc.
- Black printed axis

Catalog No.	Description	Value
951-PCR	96 Well, .2mL thin wall PCR plate, natural, 25/pk	\$68.05
952-PCR	96 Well, .1mL ultraclear PCR Fastplate, low profile, natural, 25/pk	\$71.18

Full-Skirted

For use with Bio-Rad and eppendorf Standard and RT Thermal Cyclers, ABI Sequencers and more

- Low profile design minimizes condensation & evaporation with less "dead space."

Catalog No.	Description	Value
950-PCR	96 Well, .2mL full-skirted PCR plate, natural, 25/pk	\$68.88

*650-PCR, 950-PCR, 951-PCR plates are available in colors (B, BL, G, P, R, W, Y) and 503-8PCR is available in assorted colors – please inquire with your sales representative.

Strip Caps

For use with .2ml Biodot Basic PCR Plate

Catalog No.	Description	Value
650-8PCR	8-strip optically clear flat caps with alphabetic markings, 120/bag	\$20.82
900-8PCR	8-strip optically clear domed caps, 125/bag	\$21.32

8-Strip Tubes - .2ml Thin Wall

Catalog No.	Description	Value
503-8PCR	Strip tubes with individually attached domed caps, 120/pk	\$86.62
504-8PCR	Strip tubes with strip of domed caps attached to one end, 120/pk	\$89.45
505-8PCR	Strip tubes with strip of domed caps attached to one end, 1000/bag	\$74.49

PCR Tubes - Thin Wall

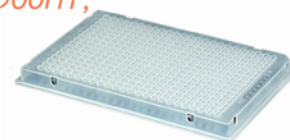

Catalog No.	Description	Value
504-PCR	.65mL w/attached flat cap, 1000/bag	\$40.22
620-PCR	.2mL w/attached flat cap, 1000/bag	\$46.78
621-PCR	.2mL w/attached domed cap, 1000/bag	\$42.77

BioDot 384 Well PCR Plates

Optimized for ABI® 3730xl and 7900HT; Fits most popular thermal cyclers

- Minimized wrap and bowing for better robotic handling

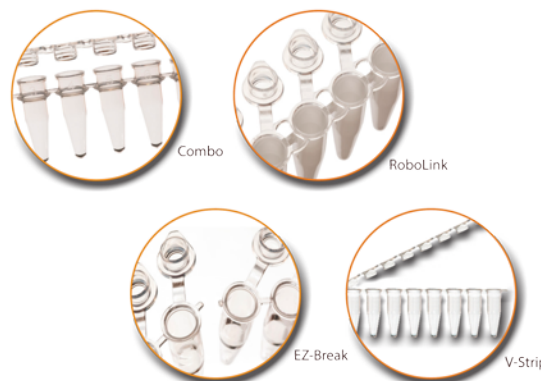

Catalog No.	Description	Value
384-7PCR	384 Well, 30µl, total/20µl working well volume, natural, 50/cs	\$170.92

BioDot Pure™ PCR

BioDot Pure™ PCR Strip Tubes

- V-strip: for those researchers who prefer separate strips and caps; the V-strip eliminates the risk of contamination by hinging on one end of the cap.
- RoboLink: Preferred by most customers, the roboLink is a rigid strip tube with individual caps that makes handling easy.
- EZ-break: Great for customers who use only portions of strips. Simply break off the number of tubes you require and save the rest. No scissors required.

Premium Fit Pipet Tips

- Eco-Friendly System in which the standard, filtered and reload racks are all interchangeable and reusable.
- Insert racks are printed with lot number, catalog number and tip volume
- Work with most brands of pipettors
- **New!** P&E Style tips fit both Pipetman & Eppendorf Research Plus and Reference 2 pipettors
- All premium fit racked & sterile items are Low Retention

New Product Improvement: Low Retention Technology

Premium Fit Filter Tips - Sterile

- Small micron filter prevents both liquid bypass and airborne contaminants from coming in contact with barrel of the pipet, helping to prevent cross-contamination
